GILL LAUNCHES BREATHABLE WATERPROOF WAIST-HIGH TROUSERS **A comfortable alternative to chest-high bibs.**

Gill's new Waterproof Waist-High Trousers are designed for use in mild conditions. These hard-wearing, waterproof and breathable trousers are great for use on sailboats and powerboats.

Gill's Waterproof Waist-High Trousers provide protection from the wind, rain and spray and offer a comfortable alternative to chest-high bibs or salopettes. Made from a breathable, lightweight, waterproof fabric, The Waterproof Waist-High Trousers have fully taped seams and adjustable ankle closures to insure your legs stay dry.

Abrasion resistant panels reinforce the high-wear areas of the seat and knees and provide great durability. Designed with your comfort in mind, these trousers have a partial mesh lining, an elasticized waistband with an adjustable web belt that ensures a secure and comfortable fit. An articulated cut in the legs allows for excellent freedom of movement. The garment is sized so that it can be worn alone or over other garments such as a pair of shorts, trousers or a base layer.

Other features include side hand pockets with single press-stud fasteners, a zipper fly for quick relief, and a rear security pocket with a Velcro closure.

As with all Gill products, the 4355 Waist-High Trousers are covered by a limited lifetime warranty against defects in materials and workmanship.
