### **GILL LAUNCHES ALL-NEW THERMAL RASH GUARD and UPDATED THERMAL DINGHY TOP**

#### **THERMAL RASH GUARD**

Gill's Thermal Rash Guard (Style 4414) offers superior warmth, comfort and stretch, presenting the perfect alternative to a regular rash guard for dinghy sailors in slightly cooler spring or summer sailing conditions.

The lightweight 6oz polypropylene body material stretches in all directions providing unrestrictive movement, while its 0.5mm lining which is non-absorbent and water repellent, provides essential wind chill protection, warmth and comfort.

The Thermal Rash Guard also has an excellent UV resistance (UPF 50+), so is ideal to be partnered with Gill Hiking pants for summer sailing, or as an additional close fitting thermal layer underneath a wetsuit in cooler conditions.

#### **Specifications:**

Gill Thermal Rash Guard  
Style # 4414  
Sizes: S-XL  
Colors: Black  
Retail: US \$65.00 CN  
\$99.00

## THERMAL DINGHY TOP

A warm solution for cold weather sailing, the redesigned Gill Thermal Dinghy Top (Style 4356) with fabric and design improvements will bring new levels of comfort and warmth to dinghy sailing enthusiasts.

Made from a softshell fabric that is windproof, waterproof and highly breathable, the top gives warmth and comfort in the harshest of sailing conditions. In addition to its soft fleece lining and unique "gator like" high protective collar, the Thermal Dinghy Top also features improved adjustable seals on both the cuffs and waist that give greater fit-flexibility and better protection against water entry.

The PU cuffs, which are soft against your bare skin, have Velcro adjustments with rubber tabs that are easily gripped with wet hands, while the neoprene waistband has twin Velcro adjustment tabs at the front for ease of use. A drawstring is provided at the top of the collar to provide an efficient neck closure.

Available in a full range of sizes, the new Gill Thermal Dinghy Top offers exceptional warmth and wind chill protection for cold air/cold water sailing.
